BITRON

Details driving Innovation

www.bitron.com

Who we are

- **Bitron** is a multinational, family-owned industrial group with a clear vision: to create products and systems that help improve the quality of people's lives and the world around them. How do we do it? Through more than 8.000 people who work every day to shape the future of tomorrow. Bitron, thanks to 21 production plants and about 500 R&D employees strategically distributed around the world, operates in the automotive, home appliance, HVAC (Heating, Ventilation and Air Conditioning), industrial and energy sectors, collaborating with the most important international manufacturers, assisting them not only in component production but also in development and design. Bitron is an equal-opportunity employer and embraces diversity equity and inclusion.
